2015 International Mechanical Code

Synopsis

For the most current mechanical codes that address the design and installation of the most current mechanical systems, use the 2015 INTERNATIONAL MECHANICAL CODE SOFT COVER.

Designed to provide comprehensive regulations for mechanical systems and equipment, it includes coverage of HVAC, exhaust systems, chimneys and vents, ducts, appliances, boilers, water heaters, refrigerators, hydronic piping, and solar systems. This valuable reference uses prescriptive- and performance- related provisions to establish minimum regulations for a variety of systems. This updated code includes information on condensate pumps, and the ventilation system for enclosed parking garages.

Book Information

Series: International Mechanical Code

Paperback: 144 pages

Publisher: ICC (distributed by Cengage Learning); 1 edition (June 5, 2014)

Language: English

ISBN-10: 1609834798

ISBN-13: 978-1609834791

Product Dimensions: 8.4 x 0.3 x 11 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 starsÂ Â See all reviewsÂ (9 customer reviews)

Best Sellers Rank: #23,008 in Books (See Top 100 in Books) #7 inÂ Books > Engineering & Transportation > Engineering > Reference > Architecture > Codes & Standards #23 inÂ Books > Textbooks > Humanities > Architecture #31 inÂ Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Design & Construction

The International Code Council is a bunch of worthless "Building Officials" (Whatever the hell that is)

who have no business writing any kind of code books. And I do not know why the Uniform Mechanical Code did not sue them for plagiarism when they first came out because that is all the ICC did. For all you laymen out there: Since the ICC has been adopted by Code Authorities all over the Country, your buildings have not gotten any better or safer. Only more politically correct & more expensive. They meet every 3 years for the sole purpose of changing codes. Not to keep up with technology. Not because there was some scientific data to show their changes are necessary. Only to add a permanent ladder to every school roof in America that has a roof deck higher than 16'. Tradesmen don't need that. Maintenance people do not need that, or want it. (I do not care how burglar proof you try and make them, teenagers will find a way to get up them and on the roofs) And Firemen absolutely do not need them. You ever seen a ladder on a Fire Truck? The only people who need a permanent ladder are out of shape, lazy code officials who haven't got the guts to climb an extension ladder. The only reason I bought this book is because I have to know what silly code changes they have come up with so I can ensure I have it in my bids & installations. As a business man, I do not care! I make a percentage off everything I sell. But as an American, I care plenty! God save us from the ICC and bring us back to the days of the UMC. America would be far better off. If anyone wants to send me a message and defend this pile of garbage, please feel free! I will debate you anywhere, anytime. And if you are with the ICC: GFY.

Received as advertised in good shape. Is complete

Book was bronken on the side, in its first half.

Written like a code book.
