## Customer Reviews

I read once that if you don't tell your wife you love her, someone else will. I laughed. You don't have to be a diehard romantic to give this book. I'm a tongue tied procrastinator when it comes to expressing love. So I got this book this week because it actually looks fun to do. Great questions, checklists and fill-in-the-blanks are leading me through putting into words what I love about my wife. You know, before someone else does. Ha.

I gave this to my bf for V-day this year and he really enjoyed reading though it. It took me over 3 hours to fill it out b/c you have to think of stories, memories, etc from your relationship. I've been dating him for a year and a half, but I think this book is more geared toward those who have been in a relationship longer or are married.

I bought this book as a Valentines Day gift for my boyfriend. I'm still currently in the process of filling it out, but I'm having a fun time doing so. There are a ton of questions to answer. Some questions are deep, thoughtful, and loving, while others are just fun and wacky. The book is definitely geared to couples who have been in a relationship for at least a year or more I would say. Don't buy this book if your love is just starting out because some questions are too advanced for new love. Pros: The book does allow you to express your feelings in a fun and different way. There are little sections where you can tape in photos or little keepsakes from earlier times. There are a variety of questions and silly little checklists to do that are fun to answer and enjoyable to read. Cons: A few of the questions seem to be somewhat repetitive or similar to each other, it's hard to come up with a different answer for those ones. By the time I reached the middle of the book, I was sick of love. lol. I began to feel cheesey mainly b/c there are so many pages to this book. It's not just a quick fill out, this takes TIME. I think the book could have been shorter and still have gotten the same point across. Overall this is a great gift for any couple looking to express their love in a different light. However, just make sure you have the time and patience to do it before you start!

My wife is deployed and I am constantly looking for cool things to send her. This book hit the spot! We've been married 10 years, and pretty much "hit the wall" when it came to remembering the details of why we are still in love. This book helped ME by making me dig deep and put my thoughts into words for her. It helped HER because...well, it's better than a dozen roses every week for the rest of her life. I've been called a "romantic", and this book helped me score major points....and it only took me about three days to fill out. This book is probably not very well suited to folks just dating/engaged or newlyweds.

This book is so cute! I filled one out and gave it to my husband when he got back from his 3rd deployment to Iraq, and he loved it :o). The book helps ask questions and provokes ideas that aren't always right at the tip of your tongue when you want something meaningful to say. AND it was so fun to fill out, I love it!

My husband loved this! I got it for our anniversary and had such a fun time filling it out! The questions are thought provoking and make you realize just how much you love your significant other. My hubby now takes it with him everywhere he goes. I recommend, a great buy for an anniversary, valentines day, or just to remind your partner how much they mean to you!

I bought this for my husband for Valentines. I figured that even if it was too mushy and he didn't like it, I could keep it as a memory and it'll be great to read through many years later. He loved it!! He even teared up in certain parts! I should admit that while I was filling it up, I was really overwhelmed. There are 90 pages of questions and many of them were different ways of asking the same question. Like a happy time together, romantic time, favorite relaxed and peaceful time, funny time, lucky time.... I even felt a little down that I couldn't remember enough to have a different anecdote for each question and we've gotten so busy with our lives that it had been awhile since we did anything romantic together. I finally filled out about 20 pages in the two days I had, and told him I'll have more filled out for our anniversary in two months' time. A week later, he still appreciates it. :)

My fiance got this for me as a Christmas gift, but decided to give it to me on New Years for our one year engagement anniversary. Hands down - the sweetest, most thoughtful gift he has ever given me (and we've been together over 7 years!). My fiancÃ© is not the expressive type, so this book was the perfect thing for him to get the words going. This had me in tears just in the first few pages, as I read through memories and his deepest thoughts about us as a couple and me as a person. Some things I never would've guessed he thought or cared about, it's all there. There's even a section you can put memorabilia, pictures, ticket stubs, etc. This book definitely gives that "oomph" and lets you think deep to tell the person you love the most how and why you love them. We are about to get married and I am actually doing one for him and giving it to him on our wedding day. This book really lets you share your story over and over with each other, and I look forward to the day we have children that will be able to read our story too.
