If you are looking for the best Thai recipes than this is the book for you. I felt in love with Thai food while my last trip to Thailand and I wanted to prepare some of the recipes at home. Since I couldn't buy any cookbook while I was there because there was no English version I searched and found this one which is definitely amazing. The recipes have the true Thai taste, they are easy to prepare and definitely heavenly. My favorite one is: Tom Yam Pawn Soup. I definitely recommend this book to everybody who wants to try something new and different!

Definitely a healthy and a new world for your taste buds. Another good thing about the book is it will educate you on the different spices used in cooking authentic Thai recipes. The herbs used are very rich in flavor and vitamins. Most of the recipes are spicy but delicious. We have been trying the different recipes these past few weekends already. The real challenge was getting the ingredients, you have to always make sure that the ingredients are fresh. I strongly recommend this cook book to all Asian cuisine enthusiasts. If you truly love cooking; tasting the different recipes within this book will definitely give you second thoughts in spending a few months in the different countries in Asia.

Excellent cookbook! Except for the squid.....ugh! But seriously, I'll be trying a few of these delicious recipes. My favorite thing, besides the recipes, were the photos. I hate getting an e-cookbook that doesn't have pictures of the prepared dish. Yep, I'd recommend this book.

A really excellent cookbook for anyone interested in Thai cooking. The recipes are well presented and each one is laid out step by step which is helpful for any novice like myself. The photos are also helpful in giving you a good idea on what to expect with each one. An essential manual for anyone who wants to experiment more with Asian cooking.

Thai recipes are delicious and really quick to prepare. Most of the thai recipes will take less than

hour to prepare. They are simple enough to make, but delicious enough to impress your friends and family.

I love the recipes and food that are available in Asia, Korean, Japanese, Thai and Chinese foods are awesome and have their own tastes. And after seeing this book, I was excited to go through the recipes and ingredients. And I was not disappointed at all, the author shared how the spices and sauces were made. And I love those recipes that were given, especially the Thai Chicken Curry and the Beef Noodle soup. The book made me feel hungry and craving for Asian delicacies. Great book for me.

This is a really good book. I was bored with my routinely food. I want to eat something different and new. I go on and while searching I found this book. I read it and tried this book recipes. Such a great taste I found of this book recipes. Mostly Thai foods recipes written in this book. Love the soup recipes written in this book. Such a great job did by author. highly recommended for those who wants to try something new.
