Bassett's Roseville Prices (Schiffer Book For Collectors)

Synopsis

Over 130 Roseville Pottery Company ceramic lines are listed and valued in this guide. Arranged in alphabetical order, each line and common variations are listed and priced (by glaze color when appropriate). Everyone interested in art pottery, American artware, or Ohio pottery will find this an essential reference work.

Customer Reviews

I have found this to be a very comprehensive price guide. It was referred to me by a long time collector and I am not disappointed. I have been using it for a year now and it has been a great companion to "Roseville in All its Splendor" The prices are not always 100% on the mark but I feel that it is closer than others on the market. And it fits in my purse ;)

This is a great little book. It is small enough to fit in my pocketbook and I have enough information I need at my fingertips when I venture upon a piece of Roseville and wonder if it is a great deal. So, don't leave home without it!

This small paperback is great to carry along while "hunting," but it does not include pictures. What is so good about it is that it's cross-referenced by both pattern and number. So you can look an item up by number if you don't know what pattern it is. I could have just missed it when purchasing, but I did not see a publication date. The copy I got was copyrighted in 2001, so its price list is not too

helpful.

Easy to use price guide. Learned more about Roseville Pottery than I had expected to learn. Prices may not be up-to-date but gives a general idea.

Excellent collector/purchasing guide. Helps give insight to pricing items. Good photos. Every collector should shop with this book in tow.

If you know all the styles and designs of Roseville, this book helps with pricing. It's pretty useless if you don't have this background.

Optimistic pricing by the numbers. Unnumbered pieces must be identified using other picture guides.

great reference
