## **Customer Reviews**

Having already in my collection of some 50 antique snuff bottles I was thrilled to see that the bottles in the book were mainly modern and how well they were selected beautifully displayed the clarity in the photographs is excellent as is the explanation on the bottles themselves. A very useful book to any beginner and a must have to guide them on there way of collecting. Snuff bottles were my introduction into Chinese ceramics as far back as 1962 and to today am still hooked.

Beautiful pictures throughout and clearly informative. We are new collectors trying to get up to speed and this book is perfect for us. Oh, and it looks great on the coffee table!

Great book with a wealth of information!

Not much information on Chinese snuff bottles. The suggested prices are no longer relevant in today's market. Most bottles shown are of mediocre quality. It is hardly a quality guide book on

Chinese snuff bottles.
