

Microsoft Outlook 2007 Calendar, Contacts, Tasks Quick Reference Guide (Cheat Sheet Of Instructions, Tips & Shortcuts - Laminated Card)

Outlook® 2007 Calendar, Contacts, Tasks

Calendar

Use the Calendar to schedule meetings and appointments.

Displaying the Calendar

In the Navigation Pane, [Ctrl] [C] to view the calendar.

Setting up Your Work Week

1. Choose **TOOLS** > **WORK WEEK**.
2. On the **WORK WEEK** taskbar, click **WORK WEEK**.
3. Set options in the **WORK WEEK** pane.
4. [Ctrl] [O] to close.

Viewing the Calendar

One day: [Ctrl] [1] to view the calendar by day.

One week: [Ctrl] [W] to view the calendar by week.

One month: [Ctrl] [M] to view the calendar by month.

Continuous days: [Ctrl] [C] to view the calendar by continuous days.

Non-consecutive days: [Ctrl] [N] to view the calendar by non-consecutive days.

Creating a Simple Appointment

1. Use the calendar to display the desired date.
2. [Ctrl] [N] to create a new appointment.
3. Type a description, then press **Enter**.

Creating an Appointment with More Detail

1. [Ctrl] [N] to create a new appointment.
2. Complete the **SUBJECT**, **LOCATION**, **START TIME**, and **END TIME** as needed. You can open events like and view, however, if you click **OK**, you will not see the event details.
3. [Ctrl] [S] to save.

Creating and Scheduling a Meeting

A meeting is an appointment to which you invite others.

1. Open an existing appointment or create a new one.
2. [Ctrl] [W] to open the **MEETING** pane.
3. In the **To** box, type the names of the people you want to meet. You can also click **More...** to select names from the address book.
4. Enter the details of the appointment.
5. To plan the meeting around the attendees' schedules, click **SCHEDULE AROUND OTHERS**.
 - New attendees are added as requested.
 - To change, click **More...**
 - To lengthen or shorten the meeting time, click **Change Meeting Time**.
6. If using Exchange 2007, the **SUBJECT** pane will show the time slots for the meeting, based on the number of attendees available. [Ctrl] [C] to change the duration of the meeting.
7. If using an online Exchange server, click **SEND** to send the meeting invitation to the first available slot before or after the current time.
8. [Ctrl] [O] to close the calendar, or to change automatic settings.

The scheduling features are available when connected to an Exchange server, Microsoft Office, or when using the Microsoft Office Internet Explorer services.

Editing an Appointment or Meeting

1. Double-click the appointment or meeting to open it. If it is a meeting appointment or meeting, select **EDIT THIS MEETING** or **EDIT THIS MEETING**.
2. Make any changes. If you are changing the appointment, click **SAVE & CLOSE**. If you are making changes to a meeting, click **SEND** to send the meeting invitation to the attendees.

Responding to a Meeting Request

When you are invited to a meeting, you can respond by clicking the **ACCEPT**, **DECLINE**, or **DECLINE AND PROPOSE NEW TIME** buttons on the toolbar or in the meeting pane. Responding to any prompts on the screen. Unless declined, the meeting is automatically entered in your calendar.

To propose a new time and tentatively accept:

1. Open the meeting request.
2. [Ctrl] [D] to decline.
3. [Ctrl] [N] to propose a new time.
4. [Ctrl] [S] to save.

Changing the Time of a Meeting or Appointment by Dragging

1. [Ctrl] [D] on the appointment or meeting. A black handle appears around the outside of the appointment.
2. To change the length of the meeting, drag the upper or lower handles. To change the time or date, drag the appointment to a different time or day in either the day or week view.
3. [Ctrl] [S] to save.

Note: You cannot change a meeting time without sending an update.

Repeating Appointments or Meetings

1. Double-click the appointment or meeting to open it.
2. [Ctrl] [R] to open the **REPEAT** pane.
3. Complete the information and click **OK**.
4. [Ctrl] [S] to save.

Viewing Multiple Calendars

- In the Navigation Pane, click the calendar you wish to view.
- To view multiple calendars on top of another, [Ctrl] [L] to layer the calendars.
- To remove an overlaid calendar, click **Close**.
- To bring an overlaid calendar to the front, click **Bring to Front**.
- To check a calendar to close it, click **Close**.
- Newly created calendar folders are automatically added to MY CALENDARS.

Creating a Group Schedule

A group schedule is a shared set of people and resources which can be used to quickly view the group's free time, plan meetings, or send the group an event.

1. [Ctrl] [G] to open the **GROUP SCHEDULE** pane.
2. [Ctrl] [N] to create a new group schedule.
3. Type a name for the group schedule. [Ctrl] [O] to open the **GROUP SCHEDULE** pane.
4. In the area provided, type the names of the group members. To select from an address book, click **ADD OTHERS**, then **ADD FROM ADDRESS BOOK**.
5. [Ctrl] [S] to save.

Using a Group Schedule

1. [Ctrl] [G] to open the **GROUP SCHEDULE** pane.
2. Select the desired group schedule, and click **OPEN**. The schedule appears showing all available time and appointments. View a member's calendar by clicking **More...** next to the member's name.
3. To make a meeting with a group member:
 - a. [Ctrl] [W] to open the **MEETING** pane.
 - b. [Ctrl] [W] to open the **MEETING** pane.
 - c. Fill out the details in the **MEETING** pane.
4. To make a group meeting:
 - a. [Ctrl] [W] to open the **MEETING** pane.
 - b. Fill out the details in the **MEETING** pane.
 - c. [Ctrl] [S] to save.
5. To send an email to the group:
 - a. [Ctrl] [W] to open the **MEETING** pane.
 - b. [Ctrl] [E] to open the **EMAIL** pane.

Printing the Calendar

1. [Ctrl] [P] to open the **PRINT** dialog box.
2. Select the **PRINT** option you want to use.
3. In the **PRINT RANGE** area, select the dates to print.
4. Set other options as needed, then click **OK**.

Hiding/Displaying Tasks

Choose **VIEW** > **TASKS** to show or hide tasks.

Choose **VIEW** > **TASKS** to show or hide tasks.

Choose **VIEW** > **TASKS** to show or hide tasks.

Customer Reviews

So...I will only review once. Each one is most helpful. I purchased them for our admins and some of the executives are finding them useful. Great idea!!!

I order this for work. Great cheat sheet for last minute look up on Outlook. I am a Dept. Secretary that controls all conference rooms in this company and always using the calendars for everyone. Great reference to look at! I would suggest to anyone who uses this program these sheets are worth the money (inexpensive) .Came on time by the seller.

IMMEDIATE shipping of a quick reference guide which was desperately needed by office staff when our e-mail provider was changed overnight. Not ONE employee knew how to use Outlook Mail. With this handy guide, we considered ourselves pros by the end of the day (and our Clients had nary a clue!).

We used to be allowed to make an index card with whatever notes we wanted prior to taking some tests in college. Most of the time they were not used but sometimes they had just the right info. Same with these quick reference cards. I just keep them near the computer and they can be faster than looking the info up on Google or other source.

This product is very useful for its easy access to learn more about how to use the application for your daily works. This handy one piece sheet is very practical to use compared to the application user guide and books. By having it in front of you on the desk, you can improve and develop the usage of the application functionality. You will never regret once you buy it.

There's a lot of info packed onto a tiny sheet here. I learned a few new things and, I think once I get used to looking at it for information when I need it, it may be useful. I think these references are great for beginning users of a program, but I assume once I know it pretty well, these shortcuts, etc., will become second nature, and I won't need the reference so much. I feel like some of the things aren't things people will use a lot, but maybe it's just the way I use Outlook. Although I am trying to use it more and more and get it more organized to help ease the burden of tons of work e-mail. This is a useful reference, that I hope will continue to make learning Outlook easy for me.

This has been a comfort to know I have it if needed. However, I have not had to use it, yet! I started a new job and there was a emphasis on MS Outlook. I was out of the workplace for 7 years and not sure how much would come naturally and how embarrassed I would be not being able to get around within the program. Well to my delight, all is well and do not need it! I will pass it on to help someone

else with similar anxiety experiences!!

This is a nice handy 'cheat sheet' for how to navigate through Outlook 2007. The look and feel of Outlook 2007 is much different than 2003. After using it at work for about 3 months I have grown to like it but it takes some getting used to. This is a great aid along the way.
